Although Christmas is all over and thoughts now turn to problems of the new year, we still have a few happenings of the Christmas season that we want to share with you, and after this week we will remember that there are still 299 more shopping days until Christmas 1973.

— CT —

Recently I read this little boy's letter to Santa Claus:

"Dear Santa Claus: I want a red wagon so my big brother can pull me up and down the sidewalk; and a toy train for my father to run for me; and a toy water pistol so I can squirt water in my sister's eyes when she tries in interfere with my building blocks."

— CT —

Then, as an afterthought, he wrote: "And Santa, bring my parents and my brother and sister whatever you think they might want — but bring them something to keep them busy so they won't bother me."

Gratitude

Dr. Albert Schweitzer, about whom so much has been written, has shared with us his views on gratitude. He thinks we are too inclined to consider gratitude a scarce commodity, that there is much more of it around than we might suspect. He cites his own life as an example. A great many people helped him in his youth, but he seldom thanked them for it. Yet down in his heart he was sincerely grateful. He simply neglected to let those who inspired his gratitude know about it. It was years later before he came to realize the pleasure people get from receiving the expressions of gratitude they have earned.

— CT —

Dr. Schweitzer urges us not to accept too readily what people say about the degree of ingratitude in our fellowmen. Often, he observed, it is shyness that keep people silent. Somehow gracious expressions seem silly coming from them.

— CT —

A great deal of water is flowing underground which never comes up as a spring," he writes. "We must try to be the water which does find its way up. Each of us must become a spring at which men can quench their thirst for gratitude."

— CT —

"In friendship we find nothing false or insincere; everything is straight forward, and springs from the heart." — Cicero

— CT —

A friend of mine, awakened by her husband's snoring, called to him, "Frank, turn over — you're snoring."

"Okay," he said, and stopped for a while. But he tuned up again several times, and she had to tell him to stop. Next morning at breakfast, she said, "What a night I put in!"

"I'll say you did!" her husband exclaimed. "You talked in your sleep all night."

— CT —

Instead of being a time of unusual behavior, Christmas is perhaps the only time in the year when people can obey their natural impulse and express their true sentiments without feeling self-conscious and perhaps, foolish. Christmas, in short, is about the only chance a man has to be himself.

— CT —

All our giving carries with it messages about ourselves, our feelings about those to whom we give, how we see them as people and how we phrase the ties of relationship. Christmas giving, in which love and hope and trust play in intrinsic part, can be an annual way of telling our children that we think of each of them as a person.

— CT —

The little girl's aunt was visiting for the holidays and was talking about Christmas. "What are you going to give you little brother for Christmas?" she asked.

"I don't know," the little

It was about the time when good coffee was selling for 20 cents a pound and you could get a 24-ounce loaf of bread for four cents and you could buy fresh fish for eight cents a pound, that Sierra Madre was to receive its first Bank under the Treasury of the United States of America.

In this same issue of the newspaper, reporting this event, under the editor and publishership of Charles Hill, the town Trustees went on record as giving the total Assessed Valuation of the City at $656,522 and that the tax rate was 75 cents per $100 assessed valuation, and list 342 resident and business buildings in the incorporated area with a total popriation of 916 residents. This is a far cry from today's $30-million assessed valuation and $2.13 tax rate with 12,227 population.

The bank then operated under its Federal Charter until the spring of 1922 when it was granted a charter under the State of California and became known as

Sign-Up Time May Have Been Forgotten

Have you signed up?

With all the hurry and scurry of the holiday season, some other matters are forgotten. Have you signed up for a recreation class for the winter session? If not, you will be pleased to know there are still openings in most of the classes and signups will continue through the week of January 8th.

Sierra Madre Parks and Recreation Dept. announces that several exciting new programs have been added to the already varied schedule, such as "Self Defense" which is a combination of judo, karate and jujitsu. For all those potential hikers, a class in "Backpacking" is forming. Buys Shoes At Ralph's

7-Year Old, Top Winner In 'Hush Puppies' Contest

Christmas vacation brought excitement and happy anticipation to most children, but to Miss Leanne Strieter it brought something impressively different! In the early days of the Christmas season, Leanne received a letter from Mr. Richard L. Simpson, advertising and publicity director of the Wolverine World Wide company ("Hush Puppies") informing her that she was a grand prize winner in a recent "Hush Puppies" contest, and that she would shortly be receiving a color TV for her family and a black and white TV for her personal use!!

Leanne had entered the contest through Ralph's Shoe Store in Sierra Madre way back in July and she had really forgotten all about coloring a Basset Hound and solving the accompanying puzzle. Ralph Hurwit, owner-proprietor of Ralph's Shoe Store, equally as excited as Leanne, says this is the first and only winner he has ever had in all his 27 (going on 28) years in business here in Sierra Madre. Seven year old Leanne"s entry was in the 7 to 9 age group and while the contest was nation-wide, each state was a separate contest so to speak and our young winner was top winner in the State of California.

Both Leanne's parents were born and raised in Sierra Madre and both her maternal and paternal grandparents still are living in this area. Maternal grandparents, Mr. and Mrs. Warren Johnson, reside in Sierra Madre while Mr. and Mrs. R. V. Strieter have recently moved to Bellflower.

Ralph has known Leanne, her younger sister, Barbara and their parents ever since he can remember and he has been fitting them with the proper shoes all that time.

He apparently does such a good job at it that whenever Leanne and Barbara, who now reside in Ojai with their parents, need shoes they come to Sierra Madre!

This will certainly be a Christmas long remembered by Leanne Strieter and with our sincerest wishes for a happy new year for her and her family, we extent our heartiest congratulations to winner-Leanne. We also congratulate Ralph on his first winner in 27 — going on 28 — years!

'A Big Band' On January 6

As the first in a scheduled twice-a-month Community Dance, the well known Frank Lawver and his Orchestra, will be presenting the "Sounds and Songs of the Big Band Era" on January 6, at 9 p.m. The dance will be held at the Sierra Madre Community Recreation Center, 611 E. Sierra Madre Blvd.

This is an opportunity for enjoyable dancing with a mellow kind of music to sooth those "holiday" shattered nerves. Bring your best girl and treat her to the kind of music you seldom hear — but wish you could.

Advance tickets are avialable at the Recreation Office for $4.50 per cauple. The door price will be $5 per couple or $2.50 per person.

The New Year is here with bright new promises, hopes and plans. And to everyone, in someway, the birth of a new year always seems to instill the thought of rebirth, perhaps because of the religious meaning to the holiday season, and most greet the new cycle with music in the heart.

If you are the type of person who voices that 'music in the heart,' why not do something constructive with that talent? lend-

Demonstrations On Roses To Start Jan. 6

What is the best method to prune rose bushes in order to get maximum bloom throughout the year? What sprays should be used to keep rose bushes healthy and productive? How often should roses be fed?

The answers to these and many other questions often asked by home gardeners about proper care of roses will be discussed at the 12th free rose care demonstrations, an event held annually in the Pageant of Roses Garden at Rose Hills Memorial Park.

The dates for this year's demonstrations have been set for two successive weekends, Saturday and Sunday, January 6 and 7 and the following weekend, Saturday and Sunday, January 13 and 14. Two sessions will be held on each of the four days, one beginning at 1:30 p.m. and a second at 2:45 p.m.

R. L. McNitt, Jr., president of Rose Hills Memorial Park, has issued an invitation for all home gardeners to attend the sessions.

John vanBanneveld, rosarian at Rose Hills and regional governor of the American Rose Society's District 9, will again use his special mechanical board to show proper rose pruning methods. He and his staff will share their successful growing secrets and will be happy to answer questions on care of roses at the conclusion of each session.

McNitt said there is ample free parking for the garden, which is located immediately inside the main entrance of Rose Hills, 3900 S. Workman Mill Road, Whittier.

Dr. W. Himstreet Elected To Board Of Calif. Federal

Dr. William C. Himstreet, executive director of Student Administrative Services and professor of business administration at the University of Southern California, has been elected to the board of directors of California Federal Savings and Loan Association, it was announced recently by board chairman J. Howard Edgerton.

"We at California Federal are very pleased to have a man of Dr. Himstreet's knowledge and experience join our board of directors," Edgerton said. "Today's economy demands the most careful planning, especially by financial institutions, and we feel his advice will be extremely helpful in this planning."

California Federal is the nation's largest federally-chartered savings and loan association with assets of more than $2 billion, and 25 branch offices in seven Southern California counties.

Council Confiscates Plans, Specifications and Details

Location of Proposed Installation 105 To 137 E. S. M. Blvd. — 23 Units

★ ★ ★ ★

After a relatively short hearing, lasting but 45-minutes, for all sides to present their particular viewpoints, and with only minor objections being made the City Council at its regular meeting of Tuesday, December 26, voted unanmiously to approve the plans and specifications for a condominium at 105-137 E. Sierra Madre Blvd. The vote was 4-0 with one Councilman absent. They also provided several conditions that that must be met. A few minutes thereafter they further overruled the decision of the Planning Commission and granted the three variances requested by the developers.

Joy of the developers, and more specially the look on the architect's face, came moments later when the Council made a further motion to confiscate all the plans, specifications and the drawings to become immediate property of the City of Sierra Madre. The purpose of this was, of course, to guarantee that should the developers start the project, that it was be exactly as presented. A few minutes later Mayor Ralph R. Rule notified the architect that he would be given permission to photograph the plans and specifications at any time, or if he preferred to visit them at any time.

The Variances asked for and refused by the Planning Commission and overruled by the Council were: 1. a reduction of 20 per cent in the sideyard requirement, reducing it from the requirement of 25 feet to 13 feet; 2. A reduction from 50-foot between buildings to maximum of 25-feet, and 3. A reduction for the rear yard setback from the required 10-feet to a low of 5-feet in some instances.

Immediate Ordinance 892 In Effect

Multiple Family Dwellings Given Council Slow Down

Elsewhere on this page will be found the story relative to the granting, and reversal of the Sierra Madre Planning Commission decision to stop, the building of a condominium in Sierra Made consisting of 23 units in the area of between 105-137 East Sierra Madre Boulevard.

The City Council at its regular meeting of Tuesday, December 26 did grant permission to build with certain conditions as, shown and then shortly thereafter passed an Interim Ordinance No. 892 which became effective immediately that stopped all procedures of this nature.

The Ordinance, published elsewhere in this issue of the Sierra Madre News, plainly states that "All provisions of the Sierra Madre City Code inconsistent herewith are suspended during the term of this Ordinance.

The Ordinance will stay in effect as long as is provided and authorized by the laws of the State of California and are expected to be in full effect for approximately 120 days or until such time as a new R-3 Ordinance is passed and

The Reverend and Mrs. W. H. Hannaford moved back to Sierra Madre this week after an absence of 17 years, to live at their new residence at 138 West Montecito Avenue. Rev. The Bank of Sierra Madre, observing its 45th year of business, announces a total in resources amounting to $5,569,687.25. Deposits within this amount come to $5,240,-863.82 as of December 31, 1952.

Among the 777 enlisted men who received ensigns' commissions recently at the Navy's Officer Candidate School, Newport, R.I., was W. Loren Heasley, son of Mr. and Mrs. James C. Heasley of 536 Oakdale Drive, Sierra Made. College degrees are reuired of all candidates. In four rigorous months, the class — the eighth and largest since the school opened in June, 1951 — covered the same naval subjects that college NROTC students do in four years. Foremost in their training was the study of gunnery, navigation, seamanship, engineering, damage control and operations.

McFarlane will discuss single poetic form. The life and works of Louis Untermeyer will be given by Miss Florence Bixby. Members will bring a sandwich and dessert and beverage will be served by Mrs. Lucille R. Doty.

Condominium

Again the developers were a little disappointed when the Council passed an Urgency Ordinance No. 892, which in fact gave a complete "Slow-Down" for all Multiple Family Dwelling, and required a Conditional Use Permit with hearings and detailed studies. The real purpose of the "Slow-Down" was to hold off the building of the Condominum until such time as a new R-3 Ordinance can be adopted and be put into process, which could be as long as 120 days but it has been estimated that this Ordinance would be completed and ready for actual building the early part of March this year.

This is the first of three such type developments planned for the City at this time and takes in the area of 105 to 137 East Sierra Madre Boulevard and contains a little over one acre and will consist of 23 units with from one to three bedrooms.

Poetry and Creative Writing will open January 2 at Arroyo Adult Center, 4921 N. Cedar Avenue, El Monte. These classes will be held in room 34 Tuesday evenings from 7-10. (Phone 442-0745 or 444-9201 for information.)

Poetry will go into its second trimester January 10 at Coronado Adult Center, 614 E. Vine (corner of Glendora) in West Covina. These classes will be held in room 6 Wednesday evenings from 6:45 - 10:15. (Phone 331-6347 or 333-1287 for information.)

Both classes will stress a relaxed atmosphere without pressure to write until students wish to do so. All creative work will be read anonymously. Both classes will be open for continuous enrollment, and will give high school credit, subject to counselor approval.

Mrs. Fertig, long-time resident of El Monte, has won numerous awards, published in such poetry journals as "Poet Lore," "South & West," "Cardinal Poetry Quarterly," "Haiku West," "California Quarterly," "Modern Haiku," "Poet (India)," "American Bard," and "Legend." She has given poetry readings, convention speeches, written book reviews, and is listed in "International Who's Who In Poetry 1972-73."

Local 1st Western Reaches 65 Years

the Savings Bank of Sierra Madre.

The bank was next heard of on September 2, 1932 of any consequences, when it was held up by the notorious Frank E. Meredith, who was wanted for murder and at the time of the hold-up captured the cashier Mattie F. Sealey and took her with him several blocks down Sierra Madre Blvd. A Mr. Allen was manager of the bank at the time under the name of the Sierra Madre Savings Bank.

The next change in the bank came about the middle of 1933 when again its name was changed under the State of California Charter and became known as The Bank of Sierra Madre and a member of the Federal Deposit Insurance Corporation.

The next time of notable importance was their celebration of their 45th year on January 8, 1953 and according to R. C. Lewis, then bank president listed its resources at $5,569,687.25 and published figures that showed of this amount $5,240,863.82 was on deposit by its customers, which was over a million dollars more than the year before. At this time the bank was located in Kersting Court and had become a member of the Federal Deposit Insurance Corporation. In its 65 years the bank has had three different loactions.

Again news was short concerning the activities of the bank until the year 1956 when the entire stock of the bank was purchased by the First Western Bank and Trust Company and then became the First Western Bank and returned to a Federal status.

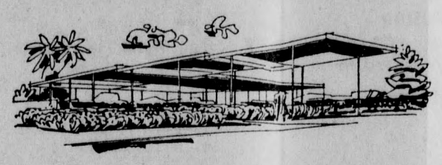

It was during the early sixties that the bank was again robbed, but this time it was alleged that the stolen money could have happened from within the bank structure; as not actual armed hold-up was experienced. But during the year 1968 the First Western Bank again experienced a hold-up at gun point, with the hold-up man and his accomplice escaping out the rear door and down east on Mariposa.

Real progress started to show for First Western Bank at the turn of the seventies, at about this time on the job and working toward making First Western an "All Service Bank" was Branch Manager Harlan Thompson, and arriving shortly thereafter to assist him in this great chore was Betty Seidel, who was the first woman Bank Official to reach the Sierra Madre area; she was at this time to be known as the branch Loan Officer.

It was during the past two years that really saw things happening around the First Western Bank. Employees became much more friendly, and the institution was fast arriving to the point of being a bank for the people and with the people. It was not too long before Branch Manager Harlan was promoted to Assistant Vice President - Branch Manager and following this upgrading, came the promotion of Betty Seidel to Assistant Branch Manager.

Today as the institution stands on the brink of starting its 66th year, its resources and deposits surpass the $10 million mark and are growing with each day the bank is open, and with the promotional minds of Thompson - Seidel at the helm many things of great importance have been planned for the coming year that will have a great tendency to further place this institution in the category of "An All Service Bank," an achievment worked for by many, but few really achieve.

FREEDOM OF HEALTH

Because we differ in backgrounds and experiencs, we also differ in attitudes and perspectives about the world we live in. Most of us over fifty can grasp the immensity of the progress in man's conquest of disease, but maybe the younger folk may take it for granted. Freedom demands responsibility — of the individual, for proper personal attention to health care; of society for unrelenting efforts to conquer other disease.

We at Hartman Pharmacy are zealous in this area. Stop in, talk with us about your freedom of health.

New Choral Group Seeks Members

ing to the enjoyment not only of yourself, but of others? Start your new year with a new approach, relaxation and fellowship.

This last fall, calling themselves the "Arroyo Chorale," amixed-voices was formed, gathering in members from throughout the surrounding areas. Even without a 'home-city" identity — which they don't want — the chorale has had a most successful and rewarding season with great plans for the future.

(You may have seen the "Arroyo Chorale" on TV during the Christmas holidays. They appeared on Channel 3 and were listed in the TV dog as "Carols in Kersting Square.)

Present membership stands at twenty with age-span ranging from 18 years of age to 60. In keeping with their future plans the group would like to triple their membership, preferably as soon as possible, in anticipation of Spring commitments which will culminate in a major concert at the Rosemead Auditorium.

Director of this aspiring and up-and-coming organization, certainly well-qualified, as well as talented, is John Carratello. He happens to be a baritone soloist, but limits himself strictly to directing. Maestra Carraello is a recent graduate of the USC School of Music and presently is the director of Music at the Sierra Madre United Methodist Church. Besides his musical talent, this young man has a special gift. Under his directorship, individual talents and styles are developed to their fullest capabilities. Indeed a rare opportunity.

Membership is open by interview with the director and all interested should contact John Carratello at his home, 686-3391, in the late afternoons or early evenings, for further information.

Rehearsals are every Wednesday evening from 7 to 10 p.m. and the type of music is representative choral literature from all periods including some work in the popular idiom.

So come on, start the New Year with a new and rewarding approach to life! Sing! . . . With the "Arroyo Chorale."

New Laws Now Available For All Employers

Copies of a payroll envelope leaflet explaining recent changes in the social security law are available to employers at the Pasadena Social Security office, according to Douglas Carter, Social Security district manager.

Called "Your 1973 Social Security Deductions," the leaflet explains how payroll contributions to social security starting in January 1973 will build increased retirement, disability, survivors, and Medicare protection for employees, employers, and self-employed people, Carter said.

"Employers with under 1,000 employees can get up to 1,000 copies of the leaflet free on request," he said. "Employers with over 1,000 employees can get free 'repro' proofs to print their own copies for distribution in payroll envelopes."

Limited supplies of a bulletin board poster are also available at the Pasadena Social Security office, he said.

The Pasadena Social Security Office is at 740 East Washington Blvd. The phone number is: 798-8974.

FREE fire rescue "Operation Red Ball" stickers are available for your benefit. Stop in now at the Fire Prevention office or the office of The Sierra Madre News.

State Legislature Given A Chance To Reform Itself

After two years of confusion and procrastination the Legislature now has the opportunity to reform its internal operations. The potential exists for the Legislature to become a smooth running, efficient, and effective lawmaking body. The passage of Proposition 4 on November 7th has offered us this opportunity.

Instead of our past annual sessions, the legislative calendar will now run for two years. Legislators' terms will begin in December following election (with the exception of this upcoming session), rather than in January. Bills may be introduced in either th first or second year, and measures introduced in the first year may be carried over into the second. The traditionaliy unproductive veto session has been eliminated.

No bills may be passed after September 1st of the second year, except those dealing with elections, tax levies, appropriations for state operations, and urgency measures. Further, statutes go into effect on January 1st next following a 90-day period from the date of enactment.

At the beginning of each legislative session reorganization must take place. New officers must be elected, committees must be appointed, and legislation must be introduced. Formerly, no bills could be carried over from the past session. All measures had to be reintroduced, reprinted, and reconsidered, at a great waste of money and time. This will no longer be the case; bills can be carried over without reintroduction, giving legislators more time for careful evaluation and consideration.

In the future, sessions will begin in December following elections. Organizational details and the introduction of legislation can be accomplished during the month, and the Legislature will be ready to commence its business in January. Further, this December date for commencement will almost eliminate the opportunity for lame duck legislating that was experienced this year. The second year of the session will also begin in December, with everything in order from the first year.

Because Proposition 4 stipulates that laws become effective on January 1st next following a 90-day period from the date of enactment, there is a strong incentive to recess by October 3rd, at the latest, of the first year. The second year, and the end of the session, has a mandatory September 1st date for final passage of bills. These new provisions of law will leave three months at the end of each year which can be used for valuable interim studies, so very necessary for the preparation of major legislation.

The potential is now in the hands of the Legislature. It is entirely possible that there will be two-year sessions of inaction, ended with a scurry of "eleventh hour" action during the last week before adojurnment. There is the possibility that interim studies will not be held. Obviously, the passage of this proposition is only halfway down the road to internal legislative reform. We will also need the willingness to utilize the provisions of this proposition toward the goal of a more efficient and responsive Legislature.

Sierra Madre Receives Share In Users Tax

State Controller Hugh Flournoy announced the distribution of $64,729,716 among the state, cities and counties as the December apportionment of highway users taxes.

Los Angeles County's share was $4,446,628.33, and Sierra Madre's share was $9,662.33. A total of $15,743,804 went directly to the counties: $11,845,138 to cities;; and $37,140,774 for expenditure on state highways.

Rev. R. Anderson Sets First Topic Of the New Year

"Count On Him" is the sermon topic chosen by Rev. Richard J. Anderson, pastor of Sierra Madre Congregational Church.

In his comments on this Sunday's 10:30 topic, Rev. Anderson says, "Saint Paul was convonced that God never gives up on what He started. We have many things that we set out to do which we never finish, but Paul was "confident of this very thing — that He which hath begun a good work in you, will perform it until the day of Jesus Christ.'

"In spite of all of our failings as we fall short in the reaching of our goals, in spite of all of our beginnings and endings, God is always faithful in His completions. At the beginning of a new year we need to recognize the power of God to complete what He starts. We need to focus our eyes upon His and not upon ourselves. The man who focuses upon himself will be cursed either with despair because he is honest, or pride because he has deceived himself. The focus of life upon oneself can never result in goodness, but the man who focuses his attention on the faithfulness of God is the man who is filled with hope. You can count on Him to be faithful in completing what He has begun in you."

Pastor Anderson concludes with "During 1973 keep your eyes upon Jesus Christ, and you will not be plagued by despair or pride, but hope and confidence will fill you and gratitude will mark your spirit."

Rev. Armin Hesse Sets Sermon Topic

"The Road from Bethlehem" will be the pulpit theme of the Rev. Armin Hesse in the 10:30 Sunday morning worship service at Faith Lutheran Church, 845 Hastings Ranch Drive. The congregation will take note of the Epiphany Festival, commemorating the visit of the Magi to the Christchild in Bethlehem.

The Sunday school departments will convene at 9. The initial time will be used in preparation for the Children and Youth Service, to be conducted on the third Sunday in January.

Next week the Lutheran Women's Missionary League will convene on Thursday morning at 9:30. The Junior Confirmation Class of grades 7 and 8 will meet with the pastor on Wednesday afternoon at 4:15. The Senior Choir has its rehearsal period on Thursday evening at 8 o'clock.

At 9 on Sunday morning the Sanctuary Adult Bible Class will initiate a study of "The Song of Solomon" with Dr. Donald Garner serving as moderator.

Cacti Report To Be Made Jan. 11

"The Rapid Evolution In the Cacti" will be the topic of a photographic report by Dr. Lyman Benson, chairman of the Pomona College Botany Department, at the Thursday evening, January 11 meeting of the San Gabriel Valley Cactus and Succulent Society.

The meeting will be held at the State and County Arboretum, 301 N. Baldwin Avenue, Arcadia. Meeting will start at 7:30 p.m.

There will be refreshments and a plant drawing.

Multiple Dwelling

adopted and becomes law.

At the present time the City Planning Commission has studied and approved the contents of the new R-3 Ordinance and at the above mentioned meeting their recommendations were turned over to City Attorney Martin for sanction and to draw a satisfactory Ordinance.

Under normal procedures it is expected that the City Attorney will present the Ordinance to the City Council for first reading on January 9 or the latest January 23. Should it receive its first reading by the Council at that time, the second reading will be the meeting following, which would be either January 23 or February 13. Should it be given passage and adoption at either of these meetings then the Ordinance will become law 30-days thereafter or on February 23 or March 13, depending upon its adoption.

Should the later date be the actual activation date this would be 77 days and well within the time asked for by the Planning Commission. All such building is now under a Conditional Use Permit; this being multiple family dwellings only, and must have the sanction of the Planning Commission and the City Council after extensive studies and hearing have been held. This can be considered as a complete "stoppage" or at least a "slow-down of all such building."

School Board Report
by
FRANK A. FLECK

Sierra Madreans: no one is fooling you. You know what is really going on in your schools. Your own battered children are enough evidence.

Some of you have been to school board meetings, pleading for relief. You remember the callous, arrogant attitude of four of the five board members when they turned down your pleas for mercy and justice. These bureaucrats turned their deaf ears in the same direction as their delicate noses.

But now the worm has turned. A school board election is approaching. Suddenly these hypocrites are considering "alternatives" to their despised busing plan.

I doubt if EVEN ONE Sierra Madrean is fooled by these cheap tactics. But if one is, I'd rather not have his vote.

The American Cancer Society says the most common cancer is skin cancer with an estimated 118,000 new cases in 1972.

Awake, Arise!

O you who sleep like a heard of sheep
in glow of the sun's broad day,
You living dead in your heart and head.
arise ere your lives decay!
I shout aloud to your idle crowd,
ere each in his place shall fall,
That life's a gift, and the days run swift,
and the night is ahead of all.
The world is rough, but the man of stuff
plies on over roads of stone;
The world has flaws, but the god-made laws
of life are to toil, not moan.
Awake, arise ere the dayight dies,
march on with the men of deeds,
O you that sleep like a lot of sheep,
arise from your bed of weeds!

Sarah Lincoln*

The summer moon and sun have watched her sleep
Now fourscore years and eight. To him this place
Was ever dear with twilight's tender memories;
For here her laughing lips cried out, "Halloo!"
As up the path he came at close of day.
A thousand times he bore her on his back,
With boyish strength abused her lovingly,
Provoked by playful taunts, by many jests.
Then she, returning to her tasks indoors,
Left him alone to brood upon the night.

The sunset built famed cities in his brain,
Forced from his breast the sigh for surging men,
Welling up, like wind-tossed rivers, one great hope,
To force from life the promises of dream.
One round of toiling days, of peaceful nights.
He stood here once, a saddened boy, forlorn,
And saw her form descend into the earth.
Thus early came the gloaming to his soul,
Into his boyish eyes the far-off look
That, yearning, seeks to see where death has trod.
He wandered forth, through darkened wilderness;
Yet somehow ever wandered toward the light,
Until he held a nation in his hand.
He was a rock in storm: in milder days
A pliant branch bent down with mellow fruit.
He was as tender as the yellow leaves
That autumn winds toss on her grave.
Through leaden days, through fevered flaming nights,
Through hate and horror of a blood-smeared land,
This early sorrow made for love in him.

Here, then, was sorrow garnished, grief made great.
Here bloomed the balm that soothed a nation's wounds.
And his dead self still makes for love and peace.

*June 20, 1916, the state of Indiana erected a monument over the grave of Sarah Lincoln, sister of Abraham Lincoln. Max Ehrmann read this poem for the dedication.

Out of the Cobwebs

Sixty Years Ago:
January 3, 1913

Street Superintendent Udell has appointed the first Tuesday in each month as the day for the periodical hauling of trash and rubbish. Last month the whole town was given a thorough cleaning. Henceforth the town will be divided into two sections, to be cleaned up alternately. Next Tuesday the west half will be covered by the wagons. Property towners are requested to gather up their tin can crop and other refuse and place it on the curb Tuesday morning. No garbage, or organic matter will be handled. The portion of town to be covered is that lying west of Auburn Avenue and of that portion of Hermosa lying south of Central.

Sierra Madre voters have been called upon to pass on a bond issue of $20,000 at the special election to be held on Tuesday, January 14. Probably most of them know the history of the water situation well enough to understand why the bonds are asked for by the city trustees. But for the sake of those who have not kept themselves informed from the news columns of this paper or who have recently come to Sierra Madre the following brief review of the matter is presented. For four years or more serious efforts have been made to place under municipal ownership and control the Sierra Madre water system and the ENTIRE SUPPLY of water from the mountains which naturally belongs to Sierra Madre. The distributing system is owned by the Sierra Madre Water Company, a mutual concern not operated for profit, whose stockholders virtually comprise the list of Sierra Madre taxpayers. This company owns half of the water rights of the Little Santa Anita Canyon stream, half interest in one of the tunnels and the whole of the other tunnel. The other half of the jointly owned water rights in the Little Santa Anita are owned by the Baldwin estate. Condemnation proceedings were instituted in 1910 by the City of Sierra Madre to acquire the Baldwin holdings in the canyon. Bonds to the amount of $40,000 were voted in December of that year. It was thought that sum would be sufficient to pay the court's award to the Baldwin estate at a sum slightly in excess of $50,000 or about $10,000 more than had been provided for in the bond issue. The expenses of the suit were more than $5,000. Some funds will be necessary for immediate repairs to the pipe lines carrying water out of the canyon. After thoroughly canvassing the situation the city trustees decided to ask a supplementary bond issue of $20,000 to complete the undertaking. Two other courses were open to them. First, to drop the proceedings, lose the $5,000 expended in the suit out of the general fund of the city and give up the hope of securing control of the water supply which logically belongs to Sierra Madre. Or, second, to make up the necessary deficiency by a direct levy which would bring the whole burden in one year's taxes. Instead they chose the bond issue as a means of spreading the expense over a period of years. In 1911, the stockholders of the Sierra Madre Water Company voted to sell their supply and distributing system to the city for $96,000. In turn the voters authorized a bond issue of $111,000 to

ORDINANCE NO. 892

AN ORDINANCE OF THE CITY OF SIERRA MADRE ENACTING AN INTEEIM ZONING ORDINANCE, PURSUANT TO THE PROVISIONS OF SECTION 65858 OF THE CALIFORNIA GOVERNMENT CODE, RELATING TO CONDITIONAL USE PERMITS.

THE CITY COUNCIL OF THE CITY OF SIERRA MADRE DOES ORDAIN:

SECTION 1: The City Council does hereby find and determine that:

(1) Large scale apartment complexes often cause municipal problems relating to adequate of street eccess and an overloading of sewer, water and storm drain facilities; and

(2) The present zoning regulations concerning multiple family dwellings appears deficient with respect to the General Plan and providing adequate density and environmental controls, particularly with respect to large scale developments; and

(3) The Planning Commission and City Council of this City have heretofore undertaken studies to determine the appropriate regulations for such developments, and to ascertain whether a conditional use permit should be required as a prerequisite to construction thereof in order to prescribe necessary conditions to safeguard against traffic hazards, devaluation of neighboring residential properties and public welfare.

SECTION 2. The City Council further finds that the processing of such studies is contemplated within the next few months, and that to permit further construction of such uses prior to the consummation of the appropriate hearings thereon would in large measure emasculate the benefits to be derived therefrom and would be contrary to the best interests and general welfare of the residents of this City.

SECTION 3. Pending completion of such studies, and pursuant to the provisions of Section 65858 of the Government Code, a prerequisite conditional use permit, processed and issued pursuant to the Zoning Code, is hereby imposed upon the construction of multiple dwellings containing more than 4 dwelling units.

SECTION 4. All provisions of the Sierra Madre City Code inconsistent herewith are suspended during the term of this Ordinance.

SECTION 5. This Ordinance shall expire upon the latest date authorized by Section 65858 of the California Government Code.

SECTION 6. This Ordinance shall become immediately effective pursuant to the provisions of Section 65858 of the Government Code and for the reasons above stated, and is adopted pursuant to the authority of Anderson v. Pleasant Hills, 229 CA 2d 79; Metro Realty v. County of El Dorado, 222 CA 2d 508; Hunter v. Adams, 180 CA 2d 511; 44 AG Ops 14; and Slater v. Los Angeles, 238 CA 2d 864.

SECTION 7. The City Clerk shall certify to the adoption of this Ordinance and shall cause the same to be published once in the Sierra Madre News, a weekly newspaper of general circulation, published and circulated in the City of Sierra Madre.

APPROVED and ADOPTED this 26th day of December, 1972.

Supervisors Slate March 1 Hearing

On a motion of Baxter Ward the Board of Supervisors scheduled a hearing for March 1 to consider changes in the rules governing the Assessment Appeals Board.

Ward stated that it was his desire to provide, "a less formal, less rigid, and less legalistic access to tax review by property owners, and to insure that the process is not weighted on behalf of the Assessor in its procedures, but provide an equal balance between the Assessor's position and that of the property owner who has appealed."

Visiting Mr. and Mrs. Dick (Jenny) Wilson of Sierra Madre are her mother, Mrs. Boyd Tullis of Wichita, Kansas and her sister, Mrs. Marsh Bachelder of Scottsdale, Arizona. Mrs. Tullis flew to Arizona and then the two of them drove on to Sierra Madre. Southern California has certainly put on her best suit of weather — at least to this point — for the out of state visitors. They should really enjoy this lovely clear weather as much as we do.

Are You Operating Your Business Under A Fictitious Name?

If So You Must Re-Register it Now!
See News Article Below

New Law in effect:

A prediction that 300,000 firms doing business in California under fictitious trade names will re-file under the new fictitious firm name law was made this week by William G. Sharp, county clerk of Los Angeles County. Sharp is chairman of a committee of county clerks which has been preparing procedures for the new statute.

The new requirement for re-filing of all firm names goes into effect July 1, 1971, but Sharp said the filings will be accepted by the county clerk's offices beginning Monday, and he urged early filing in order to avoid the rush just before the July 1 deadline. The filing fee under the new law will be $10. Filings must be renewed hereafter at five year intervals.

The Los Angeles county clerk also pointed out that the historic publication requirement has been continued under the new law and that publication of the statement once a week for four successive weeks in a newspaper of general circulation in the neighborhood of the affected business is required whenever there has been any change in the information contained in the certificate previously filed. Publication will not be required in instances where there has been no change in the information carried in the old certificate.

A fictitious name, Sharp pointed out, is one that does not include the surname of the operator or one that implies the existence of other owners; or, if a corporation, if it includes a name other than the name given in the articles of incorporation.

The purpose of the fictitious business name procedure is to protect the consumer in enabling him to find out the person with whom he is really dealing, Sharp said. If he has been defrauded by the "John Doe Television and Time Clock Repair Shop" and the shop is really owned and operated by "Richard Roe" or the "East Ganawanda Land and Farming Corporation," the consumer can find in the fictitious name statement information for bringing suit for damages. The procedure provides a ready source of information concerning identity realities obscured by fictitious business or trade names. Most banks now require evidence that the fictitious filing and publication requirements have been met before they will open an account under a fictitious name.

The office of each county clerk will furnish forms required by the new law or information and forms from this newspaper.

As Hank Ives Sees It!

LITTLE this-n-that . . . . Now that jolly old Nick has been here, hopefully he left you a few nickies in your jeans. After all, the horses are running at Santa Anita. It's a beautiful time of the year. Seventy-five racing days, exactas, daily doubles, girl-type jockeys and the cream of the crop, race-horse-wise. Love it. There is a certain kind of charisma about Santa Anita that tops all other racetracks for Old Hankus. Maybe it's because I have been going out there since I was old enough to make a wager. When they opened for free admittance for the eighth race, Hankus and cronies would be panting at the gates. Great fun for sure.

Hankus will be keeping you filled in on the best post positions to bet on, the problems with other post positions and all of those goodies as the season progresses.

Plenty of hockey action in town this weekend. The Kings host Long Island tonight, and Philadelphia Saturday, while the crosstown Sharks meet the Minnesota Fighting Saints Thursday night in Long Beach, Friday at the Los Angeles Sports Arena and Derek Sanderson and the Philadelphia Blazers New Year's Eve. The latter has a 7 p.m. face-off so that leaves plenty of party time for the thirsty spectators.

Other than that — Old Hankus takes this opportunity to wish you all a VERY HAPPY NEW YEAR.

College Opportunities . . .

The opening salvo in the nationwide attack on old-style mathematics was fired in the summer of 1955 when a commission appointed by the College Entrance Examination Board met to discuss a revision of the school courses in that subject. The most recent research, techniques, materials and methods in teaching mathematics in the elementary school will be covered in a UCLA Extension course for teachers beginning January 8 in Glendale.

"New Approaches to Mathematics in Elementary Schools, Part I," analyzing the difficulties and suggesting ways of improvement, meets nine Mondays from 3:45 - 6:45 p.m. at the White Elementary School, 744 E. Doran St.

"When withdrawal becomes a way of life it is terrifying," observes Dr. Carl A. Faber, psychologist and lecturer at UCLA. "One feels chronically depressed, impotent, powerless, isolated and often hopeless." The positive and negative values of psychological withdrawal will be examined by Dr. Faber in a special UCLA Extension lecture series, "Withdrawal," that begins January 8 from 8 to 10 p.m. on nine Mondays in Dickson Art Center a tUCLA.

A course on "Accounting for Non-Accountants," that stresses the skills and information needed to interpret reported accounting and financial data, will be offered by UCLA Extension beginning January 3, on 12 Wednesdays from 7 to 10 p.m. in the Graduate School of Management.

Contemporary trends in dance and the theater will be explored with mime Antonin Hodek, at a ten-week UCLA Extension class on "Pantomime and Movement," Tuesday, beginning January 2, 7 to 9:45 p.m., in Room 121 Social Welfare Building on the UCLA campus.

Major 20th century French novelists — Gide, Camus, Satre, Malraux and Proust — will be emphasized in a UCLA Extension course on "Masters of Contemporary French Literature: the Novel," Wednesdays, beginning January 10, 7 to 9:30 p.m., in Room 218 Haines Hall on the UCLA campus.

RACKY

Frightened, its wing broken, the bird was clinging to a rail when Tod found it. He brought it home, and "Racky" became its name.

Days passed and the bird mended quickly.

"Racky's getting well," the six-year old informed me one day. "Will he fly away?" I nodded.

"But I want him to stay here! I'll feed him, and let him sleep in his box-house, and take care of him—an' *everything!*"

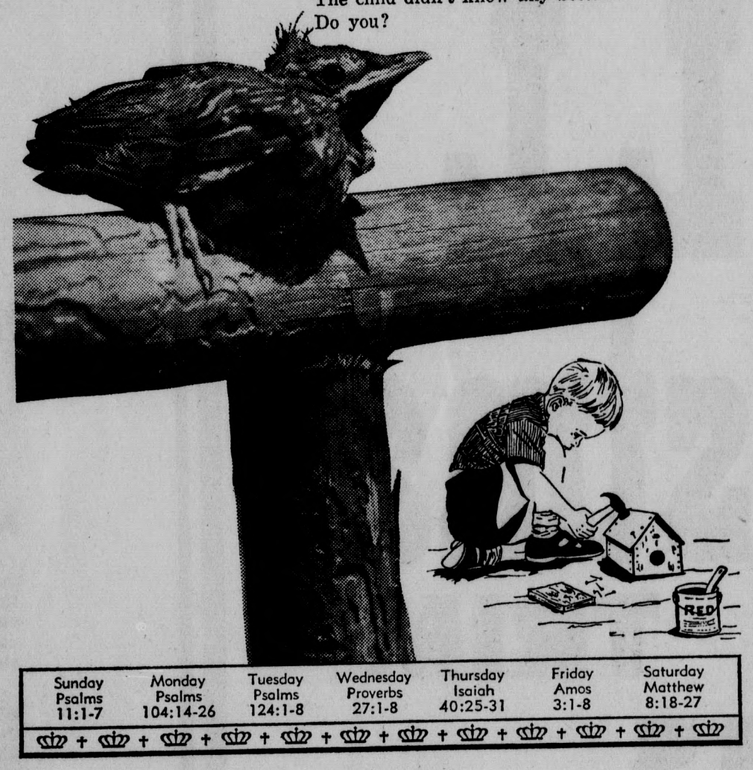

"But he might want to be with his friends," I said. There was silence as the boy pondered the idea.

"All right," he finally said. "I'll let him go. But I bet he'd be happier here with me!"

We, too, would be happier if we knew where we belong in the complex pattern of life. God helps us discover ourselves and our place in His universe through His Church.

The child didn't know any better.

Do you?

Shot In the Arm?

State Controller Houston I. Flournoy predicted the California economy will receive a tremendous shot in the arm in the next few months as federal and state income tax refunds "of well over a billion dollars" are mailed to millions of California taxpayers.

Flournoy is gearing up his office to refund more than $227 million of state income taxes to some 5,425,000 individual taxpayers starting almost immediately after January 1.

This sum of money represents slightly over 12 per cent of the estimated total state income tax collections for the 1972-73 fiscal year.

"Projections based on available evidence from the first full year of payroll withholding for State income tax indicate we should have all but about 340,000 of the refunds made by May 4. only 19 days after the April 15 filing deadline." said Flournoy whose office must issue and deliver payments for all refunds authorized by the Franchise Tax Board which administers the income tax. Flournoy also serves as chairman of the Franchise Tax Board.

Flournoy said new high-speed printers are being acquired to handle preparation of the payments which are expected to average about $42 per refund. The new equipment is expected to keep the cost of handling the payments by the Controller's office to 12 cents or less per refund, including eight cents first class postage.

A daily average of 71,000 refunds should be reached during the peak of operations expected to extend from February 24 to May 4.

The Controller said a certain amount of overwithholding has always characterized payroll withholding of income tax throughout the nation.

"People with extraordinary itemized deducations, people who wish to save money through this means and people who do not work the entire year are typical if those who contribute to overwithholding," he said.

"Additionally, in California, we have the first year uncertainty on the part of many taxpayers as to their liability and many have failed to adjust their withholding to account for their itemized exemptions. In future years, this is less likely to recur," Flournoy said.

The estimated $227 million in refund payments was included at a net reduction in personal income tax revenues in the State's 1972-73 budget and will not have to be paid from the State General Fund surplus.

Flournoy said the anticipated 5,425.000 refund payments will almost double the production of warrants by the Controller's Division of Disbursements which during Fiscal Year 1971-72 issued a total of 6,093,000 warrants in handling all of the state's disbursements.

1518 Escapees!

By Senator H. L. Richardson

I have been critical of the Department of Corrections and its director, Ray Procunier. I consider my alarm justified when you look at the record and statistics which reveal that in the 21 month period ending September 30th of this year, there were 1,518 escapes from our state prison facilities. These escapes, which I refer to as Ray Procunier's "Over-The-Fence Gang," include some thugs who never should have been placed in minimum security facilities, where escape is not only easy, but an open invitation. "Escapes" means prisoners who walk away or break out of the facility, or go out on a work furlough or 72-hour pass and never return. But however they escape, they are still fugitives.

By the Department of Corrections' own admission, our institutiins are filled with a more dangerous breed than ever before. But why then do security measures continue to decline?

These prison inmates are not the Sunday School variety — as an example, on October 13th of this year, Cesario Flores escaped from the California Men's Colony at San Luis Obispo. His criminal career goes back to 1943 and includes assault with a deadly weapon, burglary, kidnapping for ransom. robbery, sodomy, sexual perversion charges, and he was, years ago, adjudicated criminally insane. Yet he was in a minimum security facility. Even the Court, recognizing the dangers to society that Flores posed, sentenced him to life without possibility of parole. Why was he assigned by the Department of Corrections to a minimum security prison? Flores escaped and is still at large, a potential death sentence to anyone he comes in contact with. Why was he put in a minimum security prison? It is the Department of Corrections who placed him there where he could easily walk away. They should be on trial, because the known make-up of this highly dangerous hoodlum points not only to the possibility, but the probability that he will kill.

Then how about Roger Mealman, alias Roger Green, with a criminal career stretching back to 1944, including federal narcotics charges, burglary, robbery and a $40,000 bank robbery. which resulted in the death of a California Highway Patrolman while Mealmean fled the crime. He was sentenced to life imprisonment, then the Department of Corrections assigned him to a minimum security ranch. What happened? Of course. He escaped, along with a fellow convict, a three-time loser serving a 15-year sentence for voluntary manslaughter. Luckily, Mealman has been recaptured.

There are other cases, many of them. When you put dangerous felons in a minimum security setting, of course they are going to take advantage of the lack of controls and escape, or at least try to. The situation must be corrected before more innocent lives are lost. The foolish system of putting hard-core criminals in situations where there is an open invitation to escape puts the lives and property of all Californians in jeopardy.

We DO have institutions where the inmates rarely escape — San Quentin's one and Folsom is another. The present Department of Corrections' philosophy is to close down these two minimum security facilities. Their unthinking haste to diminish the populations of these facilities leads to the hardened criminals being re-classified and transferred to facilities with lesser security.

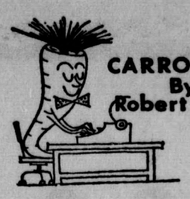

Californians may well ask how this philosophy has come to be. The whole Departtment of Corrections is riddled with involvement in behavioral sciences which propagates the myth that felons are not accountable, that punishment is somehow demeaning and passe and that man is only a product of his environment and society, hence he is not a criminal by choice, but because society has made him so. Thusly, we all share in his guilt and must share in the attempt to rehabilitate him in our own community. Supposedly, if we change his environment and surroundings, it should follow that we will make a new man of him, an honest and productive citizen. Why else should he be provided in prison with TV, golf, and recreation, except to integrate him for his release?

"Well," asked her aunt, "what did you give him for Christmas last year?"

"The whopping cough," said the little girl.

Our Unfinished World

God gave us a world unfinished, so that we might share in the joys and satisfactions of creation.

— CT —

He left oil in Trenton rock.
He left electricity in the clouds.
He left the rivers unbridged — and the mountians untrailed.
He left the forests unfelled and the cities unbuilt.
He left the laboratories unopened.
He left the diamonds uncut.
He gave us the challenge of raw materials, not the satisfaction of perfect, finished things.

— CT —

He left the music unsung and the dramas unplayed.
He left the poetry undreamed, in order that men and women might not become bored, but engage in stimulating, exciting, creative activities that keep them thinking, working, experimenting, and experiencing all the durable satisfactions of achievement.

The Best Gifts

The best gifts are not those we buy, wrap in colored paper and adorn with tinsel, but those we give from the treasures of our hearts and wrap in the intangibles of grace and goodwill:

To little children — Smiles of encouragement and words of cheer as they step, a little bewilderingly, into the first experiences of life;

To youth — A helping hand in their quest for good romance and adventure, without which youth cannot live;

To old age — Some opportunity for dreaming dreams;

To life and the things of life — Some measure of devotion which will enliven the common ways and ennoble the common tasks;

And to posterity — The legacy of a good name and good work well done.

"Thanks for the mouth organ you gave me for Christams," the little boy said to his uncle the first time he saw him after the holidays. "It's the best Christmas present I ever got."

— CT —

"That's great," said his uncle. "Do you know how to play it?"

"Oh, I don't play it," the little fellow said. "My mother gives me a dime a day not to play it during the day and my father gives me fifty cents a week not to play it at night."

Mince Pie

When you eat a generous piece of homemade mince pie, do you know that you are partaking of the "honor dish" usually served at holiday dinners?

Just when this dish was first used at Christmas feasts is not definitely known, but it came into prominence during the seventeenth and eighteenth centuries when gay times were common on the continent of Europe and in England at Christmas time.

— CT —

The "minced pie" was far different from our own mince pie. In those early times, it was from four to six inches thick and filled with the rarest of fruits, spices, and raisons. It was like a very rich sauce baked in a deep dish with a rather thick and very rich crust.

— CT —

The host always engaged the services of a physician because people invariably would eat too much minced pie, and there were sure to be a dozen people groaning and rolling on the floor with indigestion.

In America, many of the early Christians did not have any Christmas festivities because of a peculiar religious belief that no celebration of the day should occur. The old Puritans went so far as to forbid eating minced pie, and people were actually fined for so doing.

So, with this we start the new year of 1973, and from where I sit this will be a banner year for Sierra Madreans. Just watch and see and remember I told you so in January. I hope, I hope, I hope.

Dental Society To Meet Jan. 9

The Tuesday, January 9 meeting of the Women's Auxiliary to the San Gabriel Valley Dental Society will portend its observance of Dental Health Week slated for February 4 through 10, 1973.

Speaker for the occasion is Mrs. L. M. Thornton of the Indian Free Clinic of Huntington Park, who, appearing in full Indian dress, will tell of the clinic's accomplishments. The clinic, staffed by Indians, has been in operation since September of 1971 and its dental unit has been active since March of 1972. Over seven thousand patients have been benefitted by the clinic since its inception. Mrs. Thornton serves as chairman of the all-Indian board of directors.

The San Gabriel Valley Dental Auxiliary, whose president is Mrs. J. Vernon Scott of Arcadia, helps support the clinic with donations of dental equipment and other functional items.

Program chairman, Mrs. Arthur F. Major of Arcadia, has scheduled the meeting for 11:30 at a restaurant at 233 E. Huntington Drive, Arcadia. Monrovians Mrs. Richard H. Young and Mrs. John R. Sprafka are in charge of social arrangements and reservations, respectively. Decorations will be provided by Mrs. Alfred E. Stokes of Pasadena.

There seems to be no doubt that we are on a tidal wave of social change and fewer sexual taboos exist in our culture today. One major factor of today's apparent commitment to sexuality is the erotization of the social backdrop and rapidly changing attitudes. The sexual nature of men and women will be explored in "Human Sexuality," a UCLA Extension lecture program that begins January 9 at UCLA.

KNOW YOUR NARCOTICS

"MOM, HOW CAN YOU GET SO UPSET ABOUT DRUGS WHEN YOU REALLY DON'T KNOW A THING ABOUT THEM?"

If you're having a little trouble these days getting through to your kids when you try to discuss illegal drug use, it may be because they know a lot more than you do about the subject.

We can't promise to make you an expert, but we can help you to catch up a little. Here are a few facts to talk from:

1. Marihuana:

Its use is a felony. Conviction, even with a suspended sentence, may cause interruption of education, difficulty in obtaining a driver's license in some states, entering a profession, getting a responsible job. While marihuana, which is *not* a narcotic, does not cause physical dependence, it may lead to "psychological dependence"

if taken regularly. There is no current conclusive evidence that marihuana is "medically safe." Research is currently being conducted to find out more about its physical and psychological effects.

2. LSD:

Its effects can differ at times in the same individual. There is no way of predicting whether a "trip" will be "good" or "bad." And days, weeks, even months after using LSD, the things the user experienced while on the drug may recur unexpectedly. The LSD experience can sometimes be disturbing enough to cause acute and even long-lasting mental illness.

3. "Ups and Downs":

Excessive use of amphetamines ("ups") can drive a person beyond his physical endurance and leave him totally depleted physically, since he feels like neither eating nor sleeping. The body develops a tolerance to these drugs, with larger and larger doses required to feel the effects. Long-term heavy users are usually irritable, unstable, and may suffer social, intellectual, and emotional breakdown. Abrupt withdrawal ("crashing") for the heavy user can result in a deep and suicidal depression.

Barbiturates ("downs") can, in regular and excessive doses, become physically addicting. Overdose, or abrupt withdrawal for a heavy user, can cause death. Barbiturates are a leading cause of accidental poison deaths in the U.S. Amphetamines are sometimes prescribed as "diet pills," and barbiturates are given as prescription sleeping pills, but neither should be taken except in strict accordance with a physician's prescription.

4. Narcotics:

Heroin is physically, as well as psychologically addicting. Large, or unexpectedly unadulterated doses can result in death. The addict's main object in life becomes getting the drug. He may turn to crime as the only way to get enough money to support his habit (which can run as high as $100.00 per day).
